WHY PLASTIC BOTTLES?

- ▶ Recyclable
- ▶ Cost-Effective
- ▶ Wide variety of products

The reason we chose plastic bottles is because it is a cheaper alternative to other materials which makes it cost-effective.

It is also recyclable which makes it less harmful to the environment and can be reused for many other purposes.

It also allows for a wide variety of products as seen on the previous and the next slide.

TEAM POWER!

- ▶ Spending time
- ▶ Spending money!

THE JOURNEY!

SHOPPING! 😊

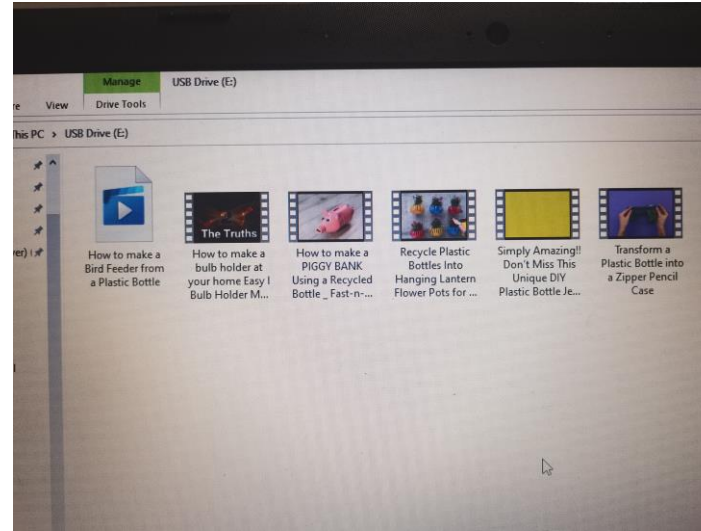

We did not have to buy a lot of materials as we already had the plastic bottles at our disposal.

We only went shopping for decorations to make our product stand out and gain the attention of the market.

Where we teach our candidate

- ▶ What we teach him/her is how to make wind chimes from plastic bottles and adding a little decorations.
- ▶ With all the other ideas we had, we gave him/her a memory stick with videos on so he can also teach himself how to make the other products.
